SUSTAINABLE DEVELOPMENT GOALS

A wide-angle photograph of a savanna landscape. In the foreground, there is a large, shallow body of water with a muddy, brownish tint. The water is surrounded by lush green vegetation, including tall grasses and various shrubs. In the middle ground, two dark-colored animals, likely water buffalo, are grazing near the water's edge. The background features a dense line of green trees and bushes, with distant hills visible under a bright blue sky filled with large, white, fluffy clouds. The overall scene is bright and vibrant, suggesting a healthy, natural environment.
